Seattle Green Factor Workshops

Wednesdays, 12 noon — 1:30 pm

Bertha Landes Room, City Hall*
600 Fourth Avenue
Seattle, WA

* except May 30th

SEATTLE *× green factor*

The Seattle Green Factor is a new requirement for development in Seattle's commercial zones. It is intended to increase the amount and quality of urban landscaping while providing flexibility for developers and designers to efficiently use their properties.

To ease the transition to this new tool, the City is offering a series of workshops. Attend this series and learn:

- 🌱 how to use the menu of landscaping strategies;
- 🌱 strategies to boost your score, and;
- 🌱 how experts have successfully integrated Seattle Green Factor landscaping strategies in projects throughout the Pacific Northwest.

2007 SGF WORKSHOPS

- | | |
|-------------|--|
